About Woofsite

Topic: Woofsite allows people to search dog pictures and save them to their unique username.

Instructions: On the home page, users have the option to find pictures and view saved pictures. Users can log in on the view saved pictures page, by searching their username. Once logged in, they can save pictures or delete them by clicking on the modify button. Then they can save the changes by clicking on the "save changes" button.

Source: The source of the data would be from a dog pictures API website. https://dog.ceo/dog-api/

Frameworks: This project has one html file and there is one external CSS file. The javascript file is also external. Bootstrap was used from https://cdn.jsdelivr.net/npm/bootstrap@5.3.2/dist/css/bootstrap.min.css
